Close Encounters on Capitol Hill

Photographic Evidence of UFOs over Washington, D.C.

Local Washington, D.C. *Fox* News aired this sometime after 10:00 p.m. September 4, 2006. Note the UFO and green glow Senate side of the dome.

Still image courtesy of Will Allen.

The image above was posted on the Internet in early 2006 by an anonymous eighth-grade student that had recently taken a field trip to Washington, D.C. It is late in the afternoon at the Capitol.

This image was taken on June 14, 2005 around 3:00 a.m. at Logan Circle in Washington, D.C. Note the unidentified blue object in motion. Image courtesy of Will Allen © 2005

Not that this is prohibited airspace (P-51) which requires a special permit to enter. According to the Washington Airports Authority operations log for February 10, 2005 there were no arrivals, or departures, around 3:15 to 4:15 a.m. when the above photos were taken by a national parks webcam located in Arlington National Cemetary.

Two nights later, at approximately 3:00 a.m. on February 12, 2005, in Washington, D.C., a man was driving through the capital on his way home to Virginia. Looking up, he noticed a huge UFO passing overhead. He could immediately see this was not a normal aircraft. He observed the UFO for about a minute. He could see it was a disc-shaped craft that was slowly passing through restricted airspace. He estimated that the alien craft was the size of five commercial jets combined.

UFO photographed by the Washington Monument July 14, 2005.
Note there is one of two military helicopters in the lower left-hand corner.

Two blue UFOs ascending over the Elipse at the National Mall on December 7, 2004

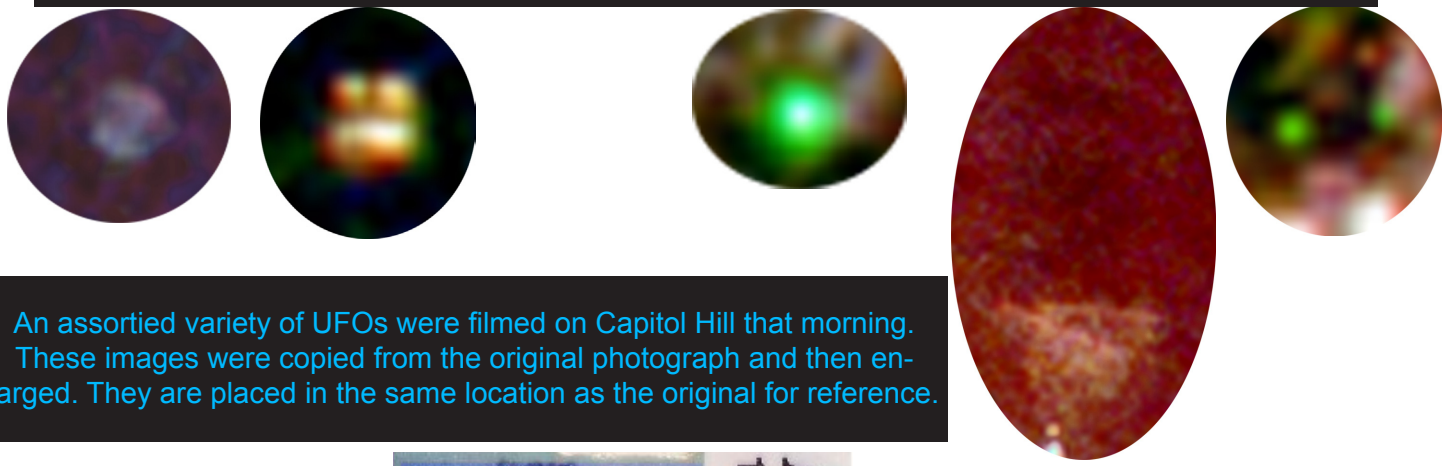
July 16, 2002 - approximately 1:00 a.m. Above is the original three-and-a-half minute exposure as taken in Lower Senate Park on Capitol Hill by Will Allen.



An assortied variety of UFOs were filmed on Capitol Hill that morning. These images were copied from the original photograph and then enlarged. They are placed in the same location as the original for reference.

Two photos in their original sequence. Note that one of the UFOs has landed on the Capitol building while the other hovers over the dome. The landed UFO then ascends back into the air and is in motion House side of the Capitol.

Note that the time codes are an approximation.

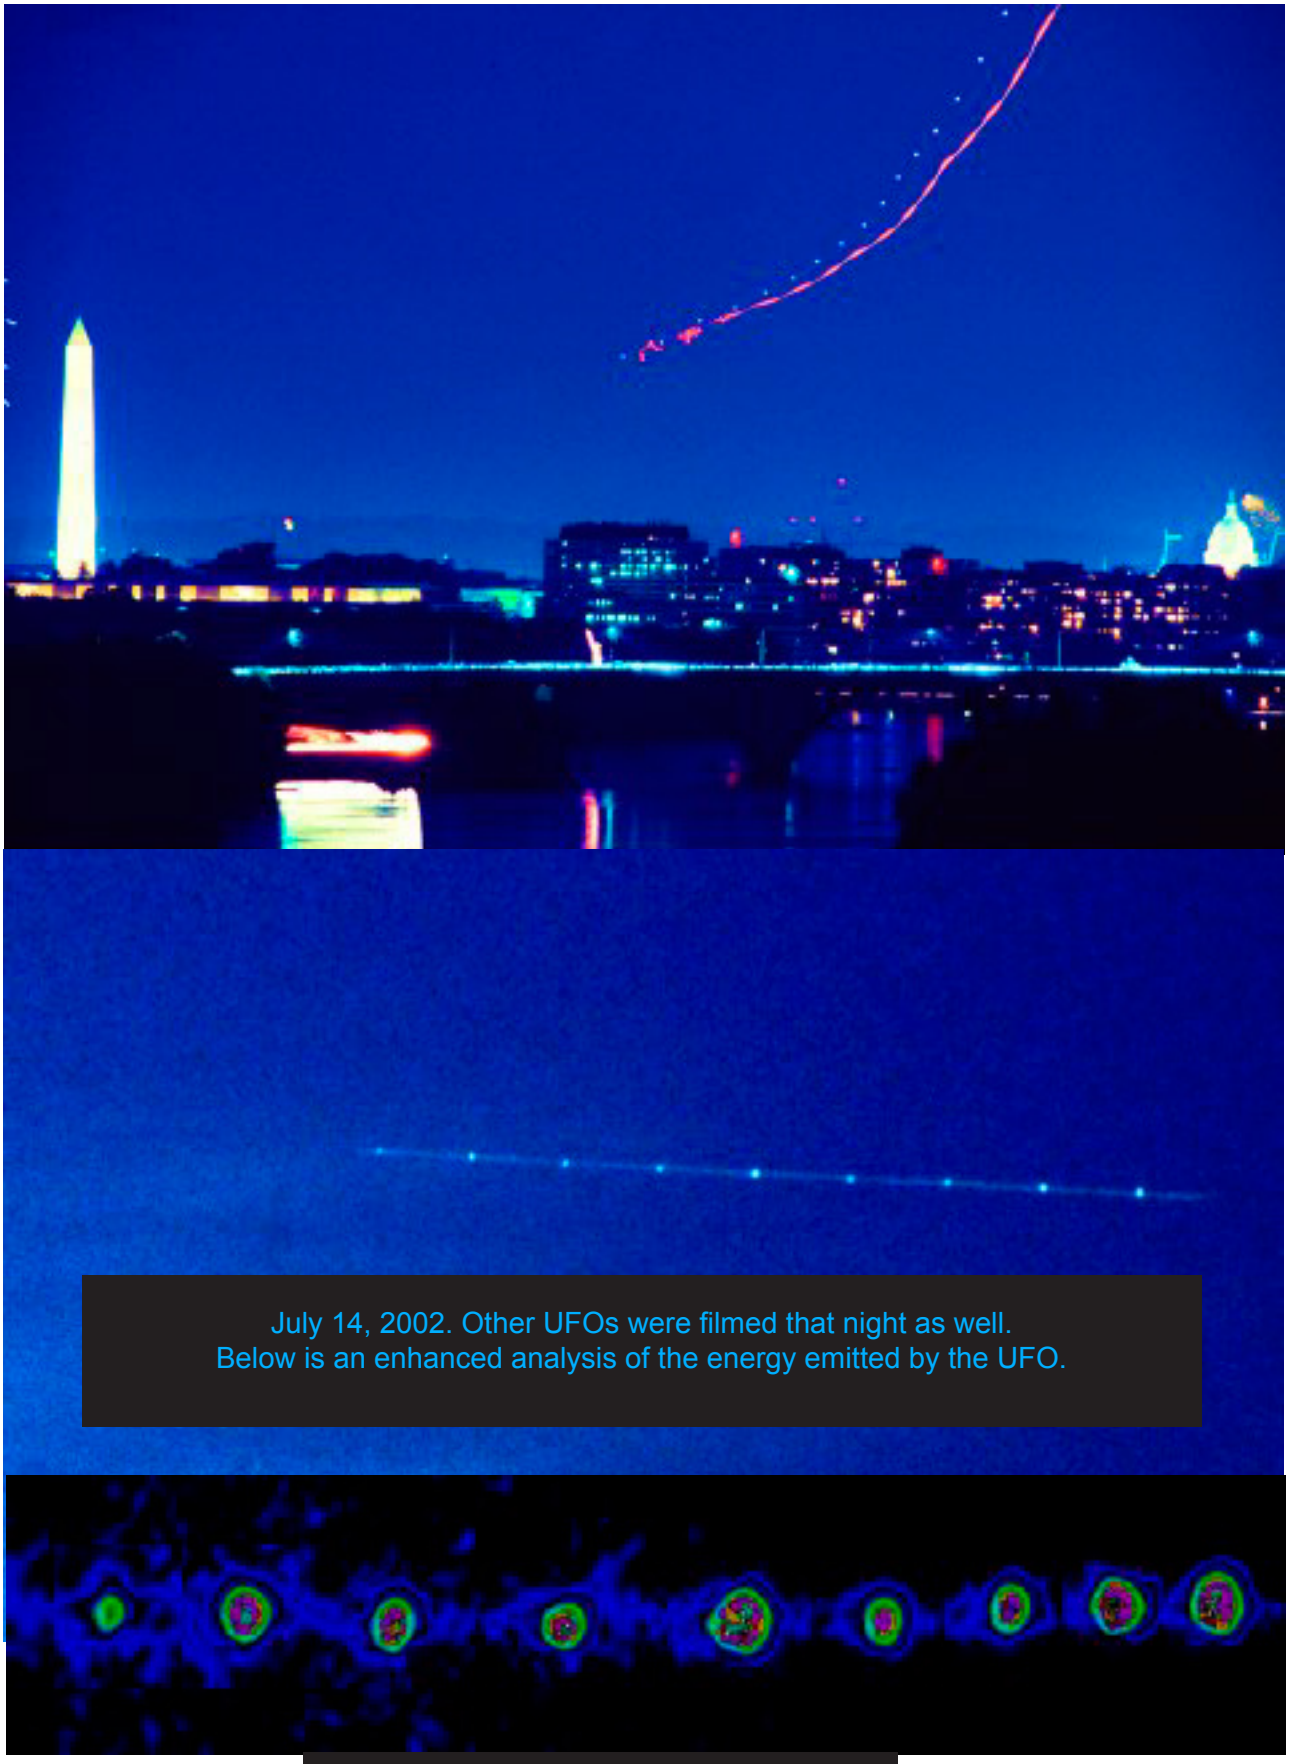
Enlargment of the blue UFO

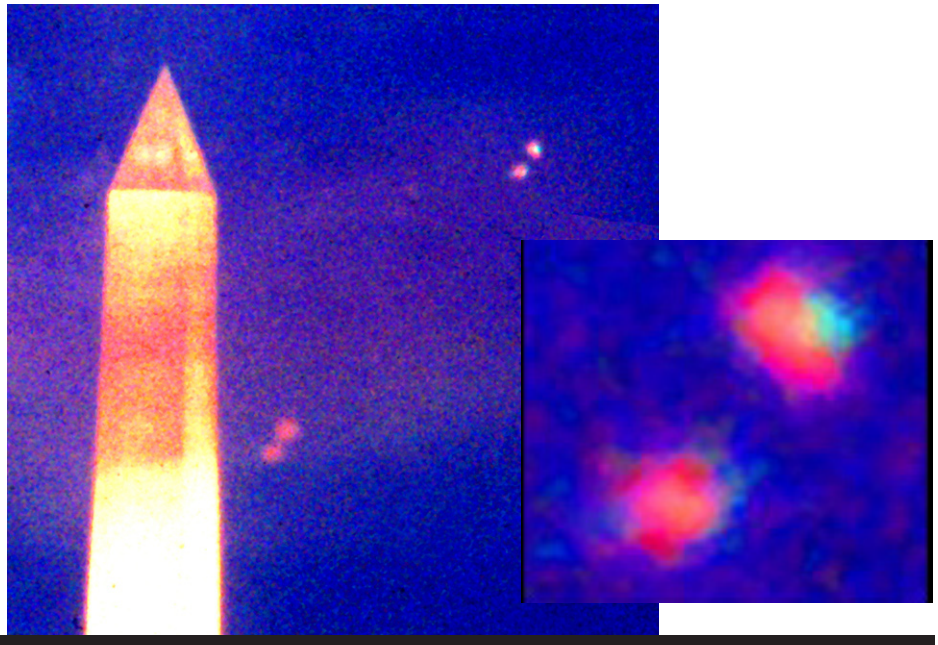
July 4, 2002 during the fireworks a blue UFO hovers over the area.

Images courtesy of Will Allen © 2002



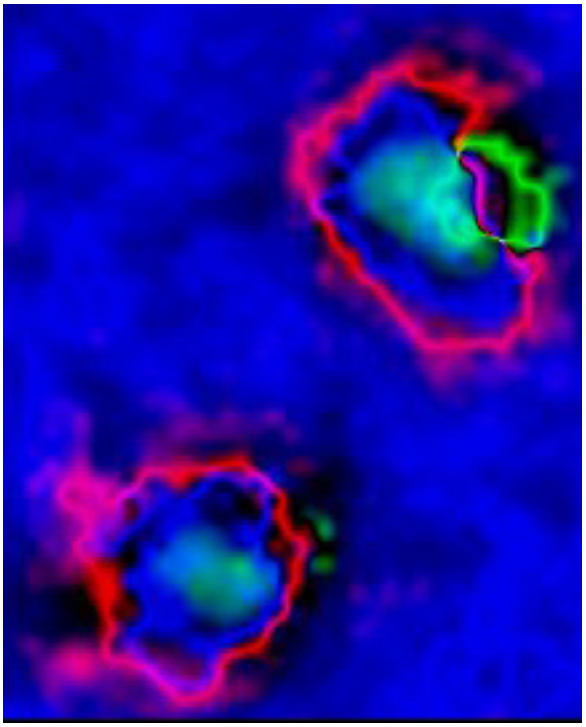
July 14, 2002. Other UFOs were filmed that night as well.
Below is an enhanced analysis of the energy emitted by the UFO.

Images courtesy of Will Allen © 2002

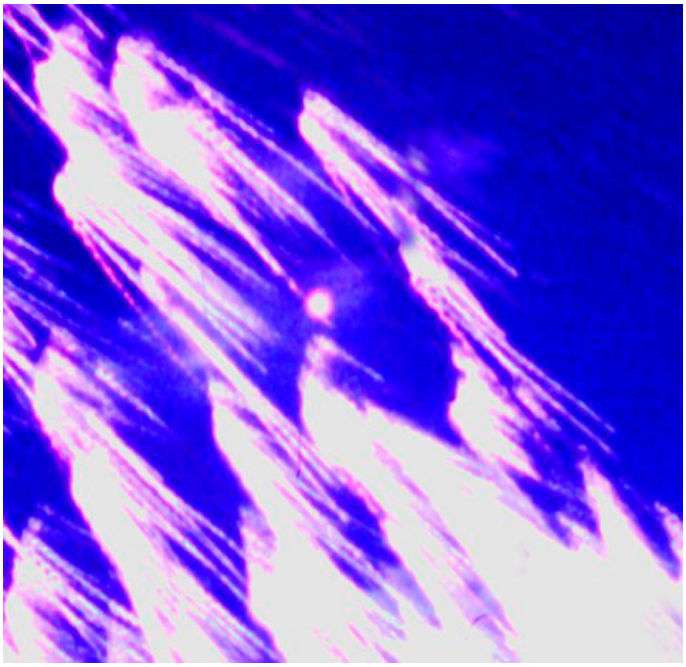


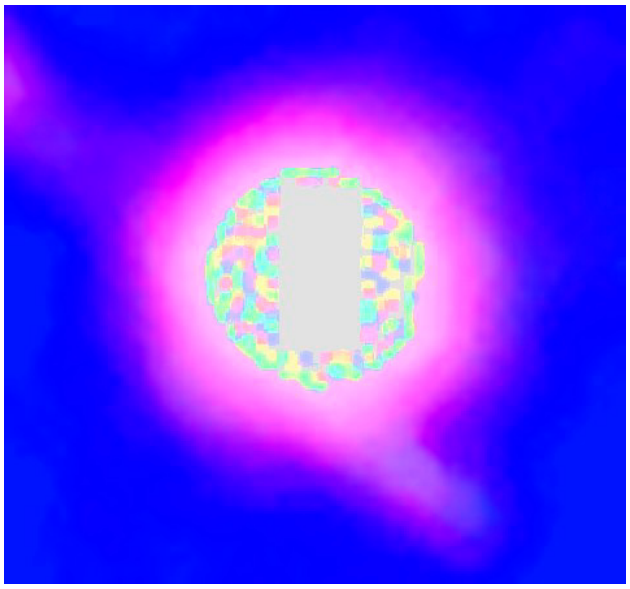
July 4, 2002. Here is a closer look at the other two UFOs that were photographed that night. These objects are stationary as they hover next to the Washington Monument.

Images courtesy of Will Allen © 2002



July 4, 2002. The two UFOs on the left were photographed on the left side of the Washington Monument. The two UFOs on the right were photographed on the right side of the monument. They are most likely the same objects penetrating prohibited airspace.





July 4, 2002. Another UFO photographed on the left side of the Washington Monument. This object is stationary and is positioned behind the fireworks. Note that some of the energy coming from this object was impossible to analyze. That is why there is a blank, rectangular area seen in the center of the object.

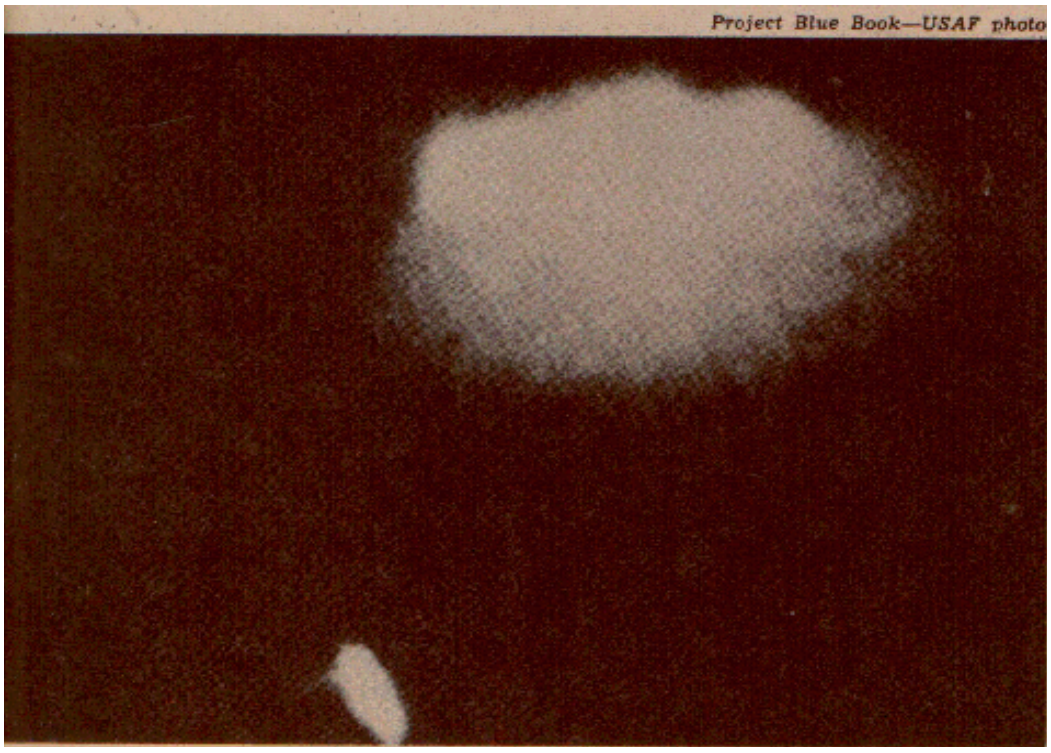
The capiton on this photo reads: Washington, D.C. itself has been the location of many sightings, most of wich the Air Force has summarily dismissed.

Note that the enlargment shows there are actually two UFOs over Capitol Hill. The image was captured on the night of February 4, 1958



This image was captured from a home video of the Disney television documetntary “Alien Encounters: The New Tomorrowland. A few seconds of this classified, historic movie footage from July of 1952 was aired on February 27, 1995. Viewer comments stated that the UFOs were darting around the night sky above the Capitol.

July 16, 1952. UFOs are captured on film in Beverly, Massachusetts by a U.S. Coast Guard photographer.

This event occurred exactly 50 years prior to UFOs being photographed landing on Capitol hill

One of the only images from that has been made public of UFOs passing over the Capitol building in July, 1952.

Inverted close up of the UFOs.

A group of UFOs photographed around 1949 or 1950 over the Capitol. The photograher used an Argus C3 camera with 35mm film.

Above is an enlargment of a UFO that was accidentaly photographed on October 29, 1942 over the newly constructed Pentagon. The actual UFO is located on the far right side of the image, just above the horizon.
